

About Campus

Campus map

To perform the various agricultural activities, State Government has established

research farm in the year 1955 at Waghai in Dang district and was under the control of State Agriculture Department. It was then transferred to erstwhile Gujarat Agricultural University and presently under the control of Navsari Agricultural University. It is divided at two different places apart from about 4 km from each other in Waghai. One is situated on the left side of road to Ahwa in village Rajendrapur, just 200 m from Waghai village circle. The total area is about 13.47 hectares. It has (i) College of Agriculture (ii) KrushiVigyan Kendra (iii) Polytechnic College of Agriculture and (iv) Hill Millet Research Station. The other is situated in Rambhas village on the road to Saputara. The total area of it is about 10.05 hectares where only research activities are going on.

Waghai Campus Entrance Gate

College Building

+ Auditorium

It has a 400 capacity with fully air condition and modern audio-visual facilities.

+ Seminar hall

150 seat capacity seminar hall with modern audio-visual facilities is available in this college.

Class room

The College having well-furnished Digital classrooms accompanied with modern teaching aids, tools and fresh air ventilated to facilitate teaching and learning process in a conducive manner – an excellent support for discussions and presentations.

Laboratory

Separate Laboratories are fully equipped with the latest equipments recommended by ICAR

Agricultural Chemistry and Soil Science

Agri. Chemistry and soil science is well equipped with fully modern instrument for student to perform practices and also for researcher for research work.

Horticulture

Horticulture Laboratory is well equipped with modern digital instruments for measurement of quality parameters of Horticultural Produce

Agricultural Entomology

Agricultural Entomology laboratory is well equipped with instruments and appliances needed for insect collection, rearing, display besides variety of plant protection appliances. This laboratory has variety of microscopes ranging from student to projection.

✚ Plant Pathology and Microbiology

Plant pathology and microbiology lab is well equipped with all instruments required for practical and research work in discipline of plant pathology and microbiology.

✚ Genetics and Plant Breeding

The lab is well equipped with latest models of microscopes, PCRs and chemicals. Students gain practical knowledge regarding cell, its structure, chromosomes etc.

✚ Agronomy

Students having practical knowledge on the farm. Practical crop production with learning by doing concept for the student. College student work on the farm field. Transplanting the paddy crop on the farm.

Soil and Water Engineering

The lab is equipped with well designed models of disc plough, M B plough, two stroke & four stroke engines, centrifugal, submersible & vertical turbine pumps, live models of sprinkler & drip irrigation system, wind mill. All instruments of surveying & levelling work are available in lab.

Library , Gymnasium and Computing facility

Library

The library is equipped with well-known quality books recommended by ICAR for the subjects allotted for the different branches written by renowned national and international authors.

No. Of books	4736
Magazine	21
Journals	01
Newspapers in regional and official language	04
CeRA	Available

It provides the coolest and peaceful environment suitable for learning and studying. This helps our students to utilize their knowledge and ability in learning new things at global level and to use the time in the best possible practical manner. Also the library works for extended hours to enhance its services to students.

Computer Lab

The lab is equipped with 31 computers with 24*7 Internet Facility which are supportive enough to the students in doing projects and presentations.

Language Lab

Digital Language lab is equipped with 26 computers with 24*7 Internet Facility which is supportive enough to the students to improve their communication skills. Lab has setup “Orell Talk Software” is interactive software which is effective in nurturing communicative skills of learners. It also aims to prepare students for IELTS and other such examinations. Furthermore, through various activities and tasks learners enhance their critical thinking skills and develop their creativity.

+ Tissue Culture Laboratory

Media Preparation Room

Incubation Room

Inoculation Room

Laboratory building of Mushroom

The lab is equipped with mushroom spawn production machinery and Plant Pathological instruments. The aim of the lab is to do research on mushroom & its spawn production and to develop awareness of mushroom cultivation among tribal farmers of South Gujarat.

Gymnasium

The Gymnasium is well equipped with modern instrument available for students. The machines are installed with latest instrument like Automatic Trade mill, 6th station gym, weight lifting instrument, orbit cycle and other modern equipment in college gymnasium.

Hostel and Play Ground Facility

Girls Hostel

Newly constructed girls hostel of 100 capacity, with separate mess facility for girls is available in campus. Hostel is equipped with CCTV camera & a 24 hrs security guard is also looking after.

Boys Hostel

Mess Facility

A large modern kitchen with steam cooking is attached to the mess hall available for all students to have breakfast, lunch and dinner

Principal Bungalow & Staff Quarters

Principal Bungalow

Newly constructed Staff Quarters

Play Ground

Ground facilities are available for all outdoor sports and games in college campus. The college has sports equipment's for indoor and outdoor games and playground.

Basket-Ball Court

Pavilion
