

# Future Plan and Road Map

**Identification of important timbers of Gujarat**

**Determination of strength properties of wood for different end uses**

**Waste utilization and value addition of lingo-cellulosic materials from wood and natural fibers**

**Screening of eco-friendly wood preservatives and plant based adhesives for composite wood**

**Honey-production potential of important bee flora**

**Livelihood and skill development for forest dependent communities**

**Development of NTFP based value added products**
