

Senior Scientist & Head Message

The Indian Council of Agricultural Research (ICAR) has established Krishi Vigyan Kendras (KVK) at district level for the overall development of farming community in the country. The KVKs have grown as a largest network and established with total number of 721 in the country and 30 in Gujarat state. Our KVK Tapi was established in the year 2004 to support technological backstopping to the farming community and other stakeholders in the district. KVK identify the technological gaps and requirements of the farmers and provides trainings for farmers, farm women and rural youths. Conducting On Farm Test (OFT) for technology assessment and Frontline Demonstration (FLD) to demonstrate the latest technologies in the field of agriculture and allied disciplines to the farming community.

This website provides an overview of the Extension activities organized for Transfer of technology, information of various demonstration units at KVK-Tapi, instructional farm, crop cafeteria at KVK-Tapi, facilities available and Services provided by KVK-Tapi, profiles of faculty members, and details of Scientific meetings & reports. We hope that whether you are a prospective farmer, extension worker, stalk holder in agriculture, student, work in NGOs, or another university, or a visitor, you will find this website to be informative.
