Section-I: Let's Know the Recruiting Organization – Suminter India Organics

Kindly visit <https://suminterindiaorganics.com/> for thorough understanding of your Prospective Employer...

☞ **Suminter India Organics** was started out as a small trading company, sourcing and supplying organic & natural produce from India to buyers internationally. Their goal, along with bringing healthy and socially-responsible goods to the market, was to ensure the well-being of small and marginal farmers.

- ☞ As a trading company, they were not prepared for the multiple challenges this posted. Not only did they need to make organic & natural farming an economically-viable option for farmers, they also had to guarantee that the products met rigorous global quality and certification.
- ☞ Suminter India Organics was built on the idea of creating an efficient bridge between small farmers in India and buyers across the world seeking high-quality organic & natural produce. They adopted an integrated approach from farm to sale to make the process as efficient, transparent and fair as possible. Their goal is to stay ahead of the curve through constant innovation; by forecasting customer demands and investing in the best infrastructure possible.
- ☞ Today, it is the **foremost producer of 100% certified-organic, all natural, non-GMO organic products.** They work with over 80,000 farmers to deliver the highest quality food, fibers and other organic products.
