

### **Deans message.....**

College of Agriculture, Navsari Agricultural University, Waghai was established by the Government of Gujarat under Tribal Sub-Plan as a constituent college of Navsari Agricultural University with the vision to build, a top class institution of learning, dedicated to excellence in Agricultural sciences, industrial technology and allied fields, research and development, extension and training for global competitiveness and cooperation, College of Agriculture started functioning from 2012-13.

Since its inception in 2012, College of Agriculture, NAU, Waghai has adhered to the quality standards of Education. The students of the College can be found in almost all fields of service as well as went abroad for further studies. Some students started their own enterprise and now they are providing employment to other students. Maintaining standards has been possible due to tireless effort of the dedicated team of the faculties.

The college is taking keen interest in over all development of students; make them capable to compete in challenging era. They are always motivated to become a 'job giver rather than job seeker'. For that, continuous efforts are being made through organizing Campus to Corporate Programmes, Entrepreneurship and Personality Development Trainings, Farmers- Student interactions, through Experiential Learning Units, hands on Training, exposure to successful entrepreneurship units, fields of progressive farmers, invited lectures from industry, government officers to make linkage among academia- industry- government

It is our sincere efforts that student not only becomes a good technocrat and professional but also a good human with strong values and ethics. This is ensured through frequent co-curricular and extra-curricular activities including sports, and cultural activities.

The faculty has been able to achieve height and maintain standards due to guidance and leadership of Honourable Vice-Chancellor, NAU, Navsari, dedication of teachers and discipline, commitment and motivation of students. I see a bright future of the faculty and hope that with united and concerted efforts we will continue to create milestones.
