

Agricultural Research Station  
Navsari Agricultural University  
Tanchha-392025

Future Program (Year 2025-26)

| Funding agency      | B.H       | Season               | Title of experiments                                                                        |
|---------------------|-----------|----------------------|---------------------------------------------------------------------------------------------|
| <b>Plan</b>         | 12006     | <i>Rabi</i><br>(5)   | 1. Initial Advance Varietal Hybrid Trial on sorghum                                         |
|                     |           |                      | 2. Large Scale Varietal Trial on sorghum                                                    |
|                     |           |                      | 3. Small Scale Varietal Trial on sorghum                                                    |
|                     |           |                      | 4. Primary Evaluation Trial on sorghum                                                      |
|                     | 12946-A   | <i>Rabi</i><br>(1)   | 1. Chick pea breeding trial                                                                 |
| <b>Non-Plan</b>     | 5004      | <i>Rabi</i><br>(3)   | 1. LST-RI-TS-AST                                                                            |
|                     |           |                      | 2. Large Scale Trial (RF) d                                                                 |
|                     |           |                      | 3. Large Scale Trial (RI) d                                                                 |
|                     | 5006      | <i>Rabi</i><br>(2)   | 1. New Germplasm<br>2. Old Germplasm                                                        |
|                     | 5007      | <i>Rabi</i><br>(3)   | 1. Large Scale Varietal Trial on chickpea                                                   |
|                     |           |                      | 2. Small Scale Varietal Trial on chickpea                                                   |
|                     |           |                      | 3. IVT on chickpea                                                                          |
| <b>Revolving</b>    | 9510-N-17 | <i>Kharif</i><br>(1) | 1. Effect of spacing and topping on growth and yield parameters of cotton var. G. cot hy 12 |
| <b>Other Agency</b> | 18023-11  | <i>Kharif</i><br>(4) | 1. Demonstration on cotton                                                                  |
|                     |           |                      | 2. Demonstration on pigeon pea                                                              |
|                     |           |                      | 3. Demonstration on Musk melon                                                              |
|                     |           |                      | 4. Demonstration to Farmer = 50                                                             |
|                     |           | <i>Rabi</i><br>(3)   | 1. Demonstration on wheat                                                                   |
|                     |           |                      | 2. Demonstration on green gram                                                              |
|                     |           |                      | 3. Demonstration on Chick pea                                                               |
|                     |           |                      | 4. Demonstration to Farmer = 50                                                             |
