Placement Activities

Placement system significantly enhances student progression by bridging academic learning with professional practice. The College of Agriculture, Bharuch has built sturdy partnerships with leading industries, agribusinesses, research institutions, government agencies and other key stakeholders across the agricultural sector.

These partnerships have built a strong professional network that provides students with diverse opportunities for internships, industrial exposure, experiential training, skill development and employment.

By closely integrating academic programs with the evolving demands of the agricultural industry, the college ensures graduates develop both solid theoretical knowledge and practical skills essential for modern professional environments. Through industry-driven learning, real-world field exposure, and application-focused education, the institution strengthens students' employability, adaptability and career preparedness—making them highly competitive in the job market.

The college offers comprehensive career guidance and placement assistance to support students' professional growth. These programs include training in resume and CV writing, interview techniques, communication and presentation skills, aptitude development, group discussion preparation and personality enhancement.

These ongoing efforts are crucial for securing successful placements, advancing careers, and enabling students to transition seamlessly into professional positions, postgraduate studies, entrepreneurship and leadership roles in the agricultural sector.

The following tables provide an overview of student performance in terms of successful placements and enrolment in higher education programmes
