Navsari Agricultural University,  
Navsari-396 450 (Gujarat)

Respected Sir/Madam,

Season Greetings

**Sub.:** NMV University – IART – PG and Ph.D. Scholars - Brain Storming Seminar –  
Req – Reg.

NMV University is a multi-disciplinary State Private University established under the Tamil Nadu Private Universities Act, 2019. It is headquartered in Chennai, with its main campus near Madurai and has a mission to transform agrarian India into a global knowledge superpower. It was founded by **Dr. N.M. Veeraiyan**, an eminent educationist with more than five decades of experience in establishing and running several prestigious institutions viz., SIMATS (Saveetha Institute of Medical and Technical Sciences) and **NMV University**. **Saveetha Dental College** is ranked continuously **first place** in INDIA since 2021 and **eighth** in the world among dental colleges. SIMATS is ranked eighteenth among private and public Universities in India.

Our NMV, IART is making a pioneer attempt in coordinating the PG and Ph.D. Scholars across the nation to create an opportunity by a Brain storming session in exploring their new horizons in agricultural extension and share their valuable thoughts and ideas. I kindly request you to circulate the attached brochure to the PG and Ph.D. Scholars of your Agricultural Extension Department and encourage the students and scholars to actively participate in this unique programme.

## Objective of the Forum

This forum focuses on the interaction of the students with 360 degree aspects of academia.

## Topics for Group Discussion

- Debunking Myths : Is studying Agricultural Extension is really easy?

## Themes

- Whether the present syllabus and curriculum meets the demand for job opportunities in industry?
- What are the courses that could be introduced or phased out in our existing academia?
- What innovative changes you can forecast in our subject?
- What advancements and revolutionary changes you propose in Thesis / Document / Seminar presentation.
- How to use our thesis effectively for farmers, entrepreneurs and extension agencies?
- What are the future perspectiveness in the method of teaching to meet the technological advancements?
- Why the extension journals are under recognized in NAAS ratings despite their significant contributions to research and policy-making?
- Where do lacunae persist in scientific journals that results in low scores for our extension subject?
- What qualities we should acquire for securing extension-based job opportunities and exploring the future studies in abroad.

## Participants

It is open only to PG & Ph.D Scholars of Agricultural Extension Education across India. It offers a platform to discuss challenges, share insights and shape the future of our discipline.

## Submission of Ideas/concepts

Participants are encouraged to submit opinions as power point presentation for given themes. opinion notes should be no longer than 500 words and must include the title, author(s) and contact details.

## Documentation and Publication

All opinions and concepts are collected from PG and Ph.D. scholars in Agricultural Extension. The discussed Ideas and collected documents will be meticulously documented during the forum and published as a book with an ISBN number. This publication will serve as the official proceedings of the forum, capturing the outcomes of group discussions and shared opinions.

### Agricultural extension Compendium

This idea will bring out the list of agricultural extension students across the different states of our nation.

## About the Institution

NMV University is a multi-disciplinary state private University established under Tamil Nadu private Universities Act,2019 by Saveetha Group of Institutions, Chennai with a mission to transform India to a global knowledge super power. It is located in a serene 100 acres campus near Aruppukottai, 60 km south of Madurai.

## Why this Session?

Dear Colleagues,

At present, we are pursuing our agricultural extension education in various SAUs. There is a little deliberation or contact with us towards meeting our academic demands, future perspectiveness, job opportunities and hence we decided to connect all of our insightful thoughts through this thought provoking seminar.

This platform aspires to bridges the gap by providing a space where we can collectively discuss our work, share our creative thoughts and redefine the future of Agricultural Extension Education. Let us come together and make this initiative a meaningful step towards progress.

This is a maiden attempt to unite all the scholars of the Agricultural Extension fraternity across the country to revitalize and reshape our discipline. We aim to create a collaborative platform to address the challenges and explore innovative ideas for the growth of our subject. Your active participation will give strength to this initiative and will cultivate futuristic thought provoking seminars.
